

MOUNDSVILLE PARKS & RECREATION'S

“BUY A BENCH” PROGRAM

In an effort to “Bring Back East End” and make the park more family friendly and convenient, the City of Moundsville Parks & Recreation Department is installing benches around the new playground area. These 6’ benches will be installed directly into the ground and have recycled plastic seats and backs. We are offering the public a way to recognize, honor, or memorialize someone by purchasing one of these benches. The cost of each bench is \$350.00, and that includes the installation and the engraving. Give a long-lasting tribute to a loved one or family by purchasing one of these benches. Available colors are cedar, brown, and gray, and the engraving will allow 38 characters. Initially, the benches will circle the playground area, giving parents, grandparents, etc. a place to sit while the children play. If many benches are purchased, they will be installed around the entire East End Park Complex. If you wish that your bench is placed near the playground at another park (Riverfront, Park View, Garfield/Ruby Street, or 12th Street Complex), please note that below. Include a check or cash for \$350.00 along with this form. To pay with credit card, please pay in person at the City Building (additional fees for credit card).
